Overview

Economic is a closed-end investment corporation, the shares of which trade on the Toronto Stock Exchange under the symbol "EVT". Economic is an investment vehicle for long-term growth through investments in common equities, as management believes that over long periods of time, common equities, as an asset class, will outperform fixed-income instruments or balanced funds. From time to time, however, assets of the Company may be invested in interest-bearing short-term securities pending the selection of suitable equity investments.

The Company has been a closed-end investment corporation since 1927. The Common Shares have persistently traded at a discount to their net asset value, ranging from approximately a 18% discount to an 37% discount over the past 10 years. Management believes that shareholders who have invested in the Common Shares of the Company recognize that the Common Shares of the Company usually trade at a discount to their net asset value. On March 9, 2022, the Company renewed its normal course issuer bid. Further information is included on page 7 of this interim report.

Closed-end investment corporations have the following benefits: they often allow investors the opportunity to purchase assets at a discounted price; they have management expense ratios which are generally much lower than those for actively-managed, open-ended funds; and the management of a closed-end investment corporation's portfolio is not impacted by shareholder subscription or redemption activities.

Economic has no plans to become an open-ended investment fund.

The Company owns, directly and indirectly, long-term investments in the common shares of some publicly-traded Canadian companies, and a managed global investment portfolio of common shares of publicly-traded global companies.

The long-term investments consist primarily of the publicly-traded common shares of E-L Financial Corporation Limited ("E-L Financial"), Algoma Central Corporation ("Algoma"), a shipping company, and The Bank of Nova Scotia. At June 30, 2022, E-L Financial represented 38.5% (December 31, 2021 – 36.6%) of total equity investments, Algoma 4.8% (December 31, 2021 – 4.4%) and The Bank of Nova Scotia 6.1% (December 31, 2021 – 6.1%). E-L Financial, Algoma and the Company are related parties. In management's view, these investments are consistent with the Company's investment strategy and contribute to achieving the investment objective. Further related party information is provided in Note 12 to the financial statements in the 2021 Annual Report and in the schedule of investment portfolio in this interim report beginning on page 15.

MANAGEMENT'S DISCUSSION AND ANALYSIS

E-L Financial operates as an investment and insurance holding company with two operating segments, E-L Corporate and The Empire Life Insurance Company ("Empire Life"). E-L Corporate's operations include the oversight of investments in global equities held through direct and indirect holdings of common shares, investment funds, closed-end investment companies and private companies.

E-L Financial has a 52.8% interest (December 31,2021 - 52.7%) in a closed-end investment corporation, United Corporations Limited ("United"), which is an investment vehicle for long-term growth through investments in common equities. In addition, E-L Financial has a 37.4% interest in Algoma and a 24.1% interest in Economic. E-L Financial also owns 99.4% of Empire Life which underwrites life and health insurance policies and provides segregated funds, mutual funds and annuity products in Canada. Each of E-L Financial, Empire Life, United and Algoma are related parties and are reporting issuers which trade on the Toronto Stock Exchange and have profiles on SEDAR.

The balance of Economic's investment portfolio is managed by Neuberger Berman Canada ULC ("Neuberger Berman Canada"), an investment manager headquartered in Toronto. Neuberger Berger Canada manages the portfolio by investing in global equities following a quality value investment style. Neuberger Berman Canada is a business of Neuberger Berman. Neuberger Berman, founded in 1939, is a private, independent, employee-owned investment manager headquartered in New York. The firm manages a range of strategies including equity, fixed income, quantitative and multi-asset class, private equity, real estate and hedge funds on behalf of institutions, advisors and individual investors globally. With offices in 25 countries, Neuberger Berman's diverse team has over 2,400 professionals. The firm manages US\$418 billion in client assets as of March 31, 2022.

At June 30, 2022, approximately 51.3% (December 31, 2021 – 48.6%) of the investment portfolio was held in long-term investments and 48.7% (December 31, 2021 – 51.4%) was managed by Neuberger Berman Canada. Over time these percentages will vary based on the market value of the two portfolios and as a result of any purchases or sales of investments.

Investment Strategy

The objective of the Company is to earn an above-average rate of return, primarily through long-term capital appreciation and dividend income. Short-term volatility is expected and tolerated. Management remains confident that the Company's investment strategy will reward shareholders over the long term.

The investment portfolio of the Company comprises a mix of Canadian and foreign investments. Net equity value and net investment income may vary significantly from period to period depending on the economic environment and market conditions.

Use of Non-GAAP Measures

This MD&A contains net equity value per Common Share, growth in net equity value per Common Share and net investment income per Common Share. These terms do not have any standardized meanings in GAAP (generally accepted accounting principles) and therefore may not be comparable to similar measures presented by other companies. The Company believes that these measures provide information useful to our shareholders in evaluating the Company's financial results.

Net equity value per Common Share is used by investors and management as a comparison to the market price of its Common Shares to determine the discount or premium at which the Company's Common Shares are trading relative to the net equity value per Common Share.

The duration and impacts of these events cannot currently be determined. Unexpected developments in financial markets and regulatory environments, may also have adverse impacts on the Company's financial results.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. Description of Company and summary of operations

Economic Investment Trust Limited ("Economic" or the "Company") is a closed-end investment corporation. The head office, principal address and registered office of the Company is located at 165 University Avenue, Toronto, Ontario, M5H 3B8.

Economic trades on the Toronto Stock Exchange under the symbol EVT. Economic is an investment vehicle for long-term growth through investments in common equities, as management believes that over long periods of time, common equities, as an asset class, will outperform fixed-income instruments or balanced funds. From time to time, however, assets of the Company may be invested in interest-bearing short-term securities pending the selection of suitable equity investments.

The interim condensed financial statements are presented in Canadian dollars which is the functional and presentation currency. These interim condensed financial statements were approved by the Company's Board of Directors on August 3, 2022.

2. Basis of presentation

These unaudited interim condensed financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting as issued by the International Accounting Standards Board and follow the same accounting policies and methods as the most recent annual financial statements. These unaudited interim condensed financial statements do not include all of the disclosures required under International Financial Reporting Standards for annual financial statements and should be read in conjunction with the notes to the Company's audited financial statements for the year ended December 31, 2021.

3. Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Company has made in preparing the financial statements:

Fair value of investments in private companies

The fair value of investments in private companies is measured using the adjusted net asset method which estimates the fair value of the underlying assets and liabilities of the private companies. Refer to Note 5 in the Company's audited financial statements for the year ended December 31, 2021 for further details.

Deferred taxes

Estimates and assumptions are used primarily in the determination of the Company's deferred tax liabilities, as the income tax rates used in determining the liability are dependent on an assumption as to when a deferred tax liability is expected to be realized.

4. Financial instruments

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted unadjusted prices in active markets for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly (Level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

At June 30, 2022, the Company had \$828,111,000 (December 31, 2021 – \$976,589,000) of Level 1 and \$153,232,000 (December 31, 2021 - \$169,446,000) of Level 3 equity investments. During the six months ended June 30, 2022, there were no transfers between Level 1, 2 or 3 equity investments.
